What to do this week

- Pull list: stop reordering today. Ask each supplier in writing about returns or credits before Nov 12.
- Fix list: request relabeled stock or stickers with the missing elements, a COA QR code, and child-resistant packaging.
- Now: ID check for anyone who looks under 30 on products over 0.4 mg THC. Remove kid-appeal and health-claim items from display.

Not legal advice. KeepPull reads labels and certificates against the state's published rules and cites each line so you or your attorney can check it. Source: agr.illinois.gov, IB-2026-06 Illinois Hemp Act Overview (June 2026).
